Sage 100 Today: The Challenges

Critical issues impacting growth & customer retention

14%

Churn Rate (High Risk)

Declining

New Customer Acquisition (NCA)

LOW

Cloud Adoption Velocity

Operational & Product Pain Points

Difficulty Moving to SPC (Cloud Hosting)

Migration friction remains high, slowing down the modernization of the installed base.

No Usage Data Visibility

Zero data to understand user behavior, making proactive care and retention strategies impossible.

Fragmented, Multi-Layer Experience

Product core is stuck; innovation comes from disconnected services (SSM, Connect, Connect, Knowledge Base), creating a disjointed user journey.

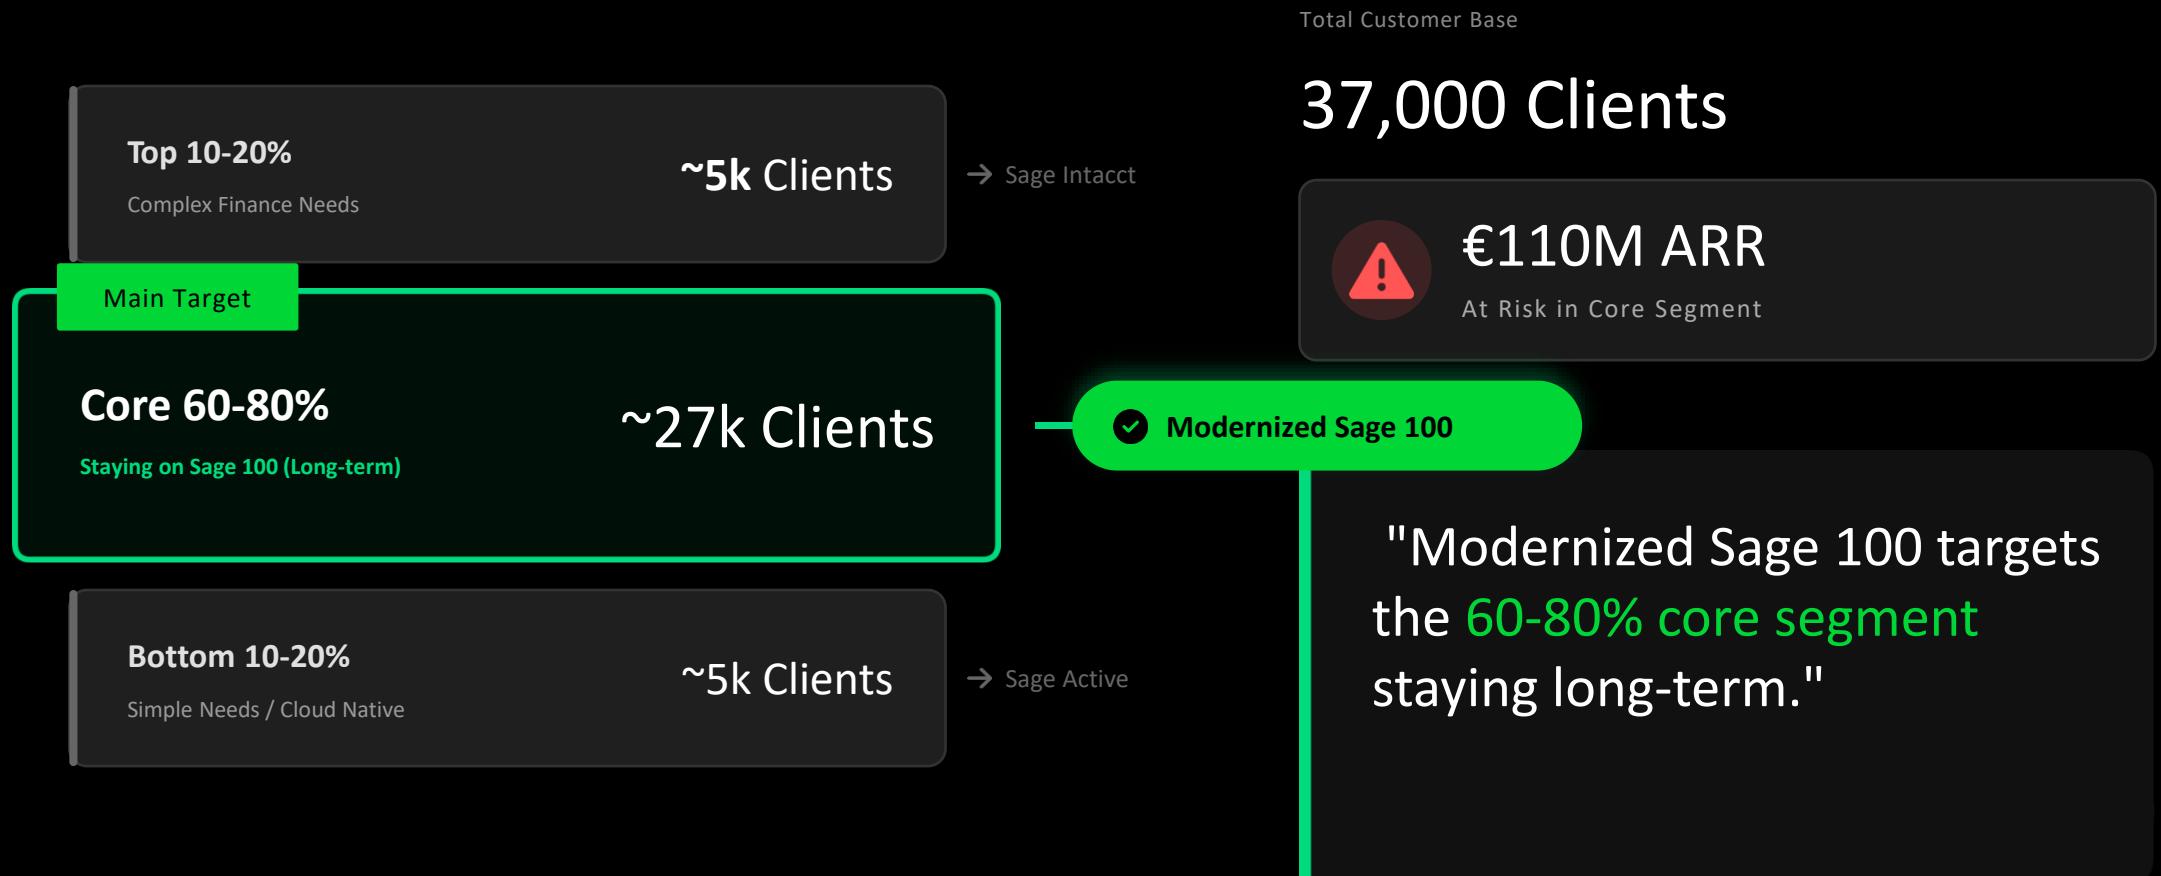

Note: These challenges are not specific to France but are shared by all cloud-connected products across our markets.

Customer Base: Migration Paths

Sage

Cloud Connected Products have **30+ Years of Business Expertise**

An accumulated functional depth that
no competitor can catch up in the 2 years ahead.

Unbeatable Functional Moat

Sage Our Ambition: Return to Conquest Mode

Strategic Goals 2026

-60% Drastically Reduce Churn

Targeting 5-7% churn rate (down from 14%) by delivering tangible value through Modernized Sage 100.

Reignite NCA Growth

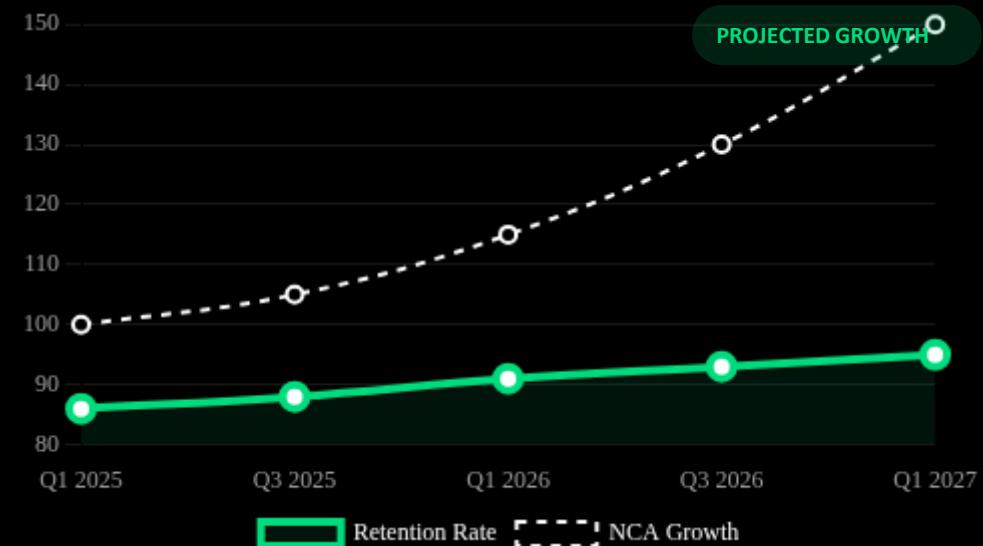

Launch a modern, competitive offering that attracts new customers and simplifies the sales process.

Innovation Leadership

Position Sage as the most innovative SMB solution with cutting-edge AI and seamless and seamless UX.

E-Invoicing Catalyst

Leverage the Sept 2026 reform as a unique market opportunity for massive adoption and customer acquisition.

Our Vision: 3 Experiences Transformed

Customer Experience

Modern & Reactive Interfaces

Centralized Sage Hub

Integrated Agentic AI

Partner Experience

AI Studio for Innovation

Portfolio Data Access

Open APIs Ecosystem

Employee Experience

Innovative Product to Sell

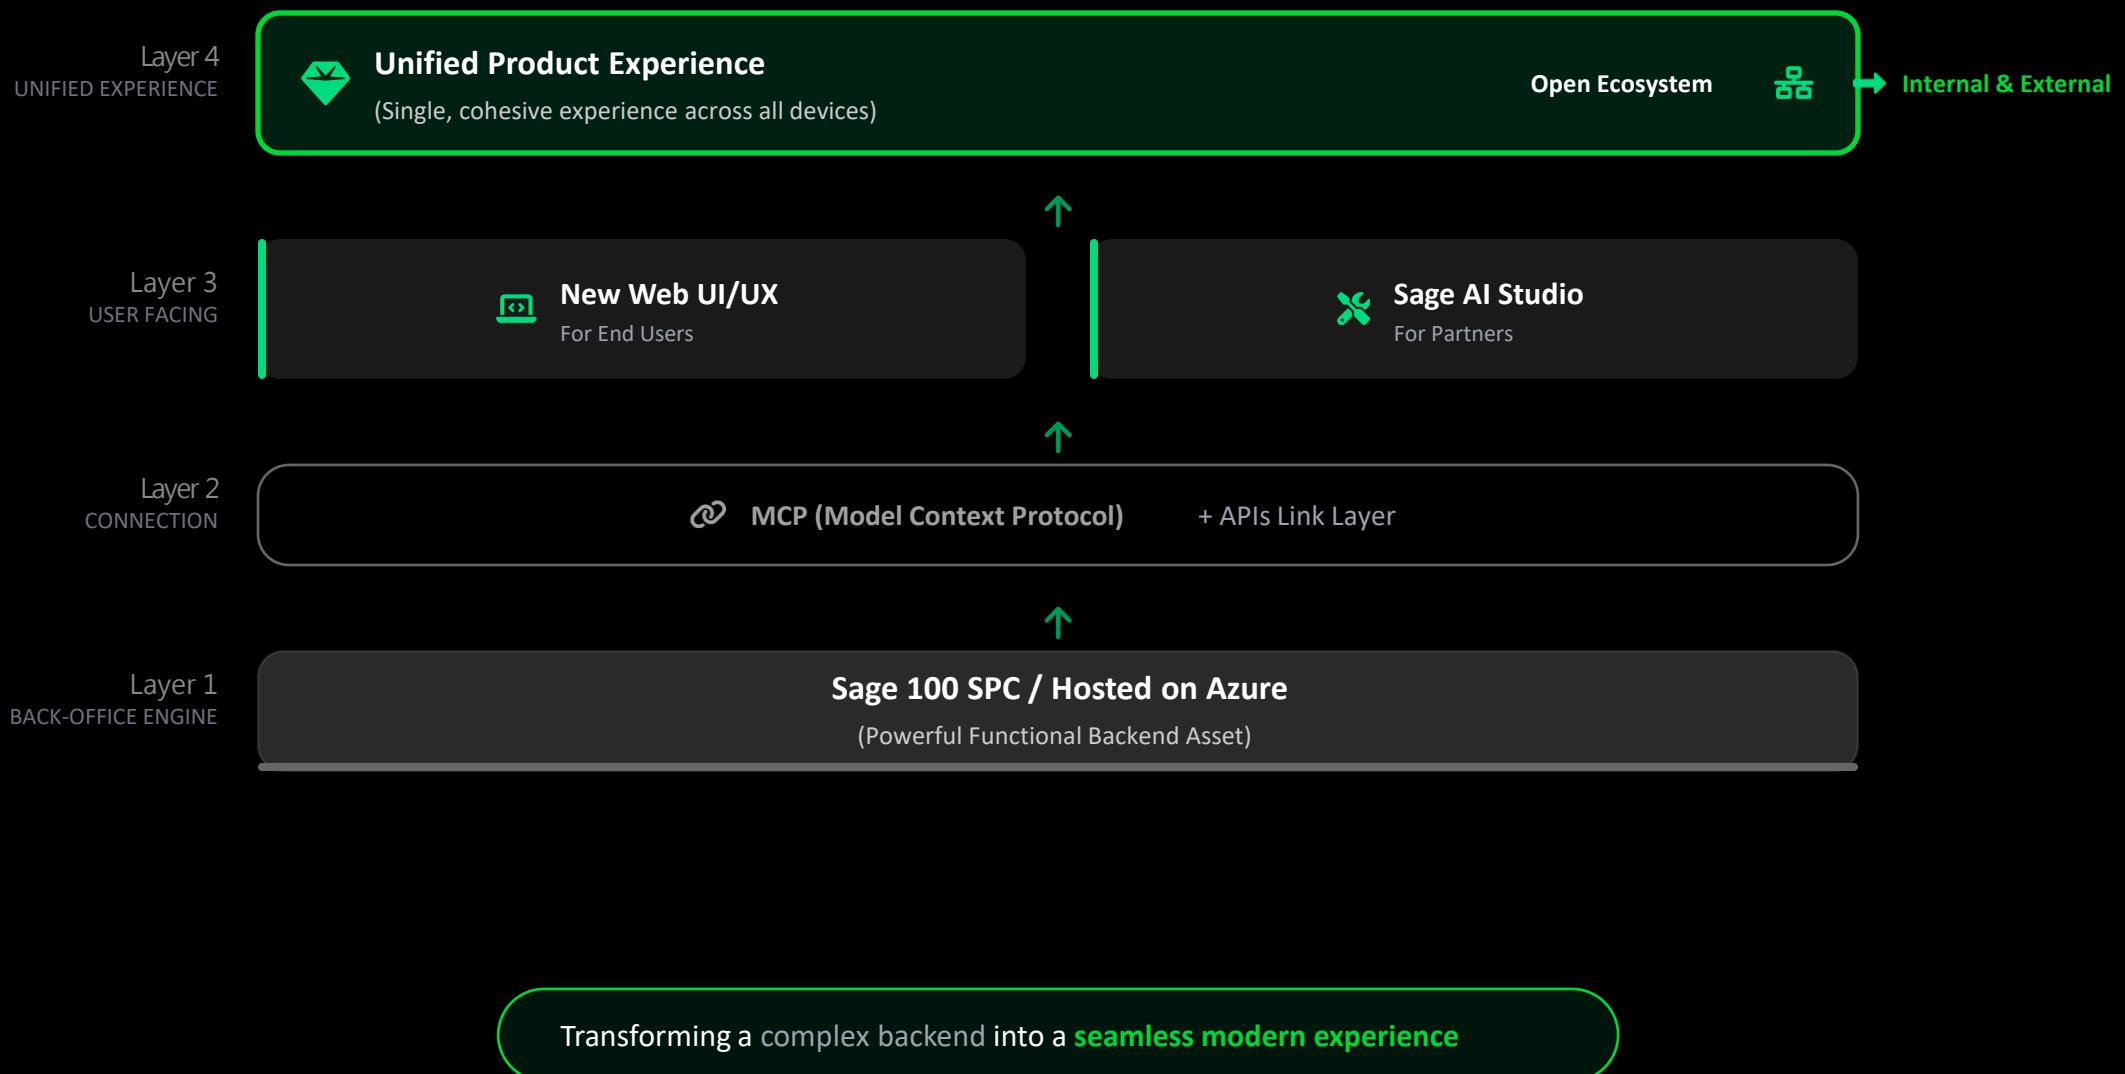

Unified Tools & Metrics

End-to-End Ownership

Technical Architecture

From fragmented multi-layer to unified experience

Web Ergonomics : Speed & Modernity

Hyper-Reactive Interface

Local cache technology delivers extreme speed. A major advantage over SPC hosting latency.

Web Access Anywhere

Fully responsive architecture. Optimized for seamless use on desktop, tablet, and mobile.

Modern & Intuitive

Frictionless workflows and clean design reduce user training time and errors.

Competitive Edge

Sets a new market standard for speed and usability vs. competitors.

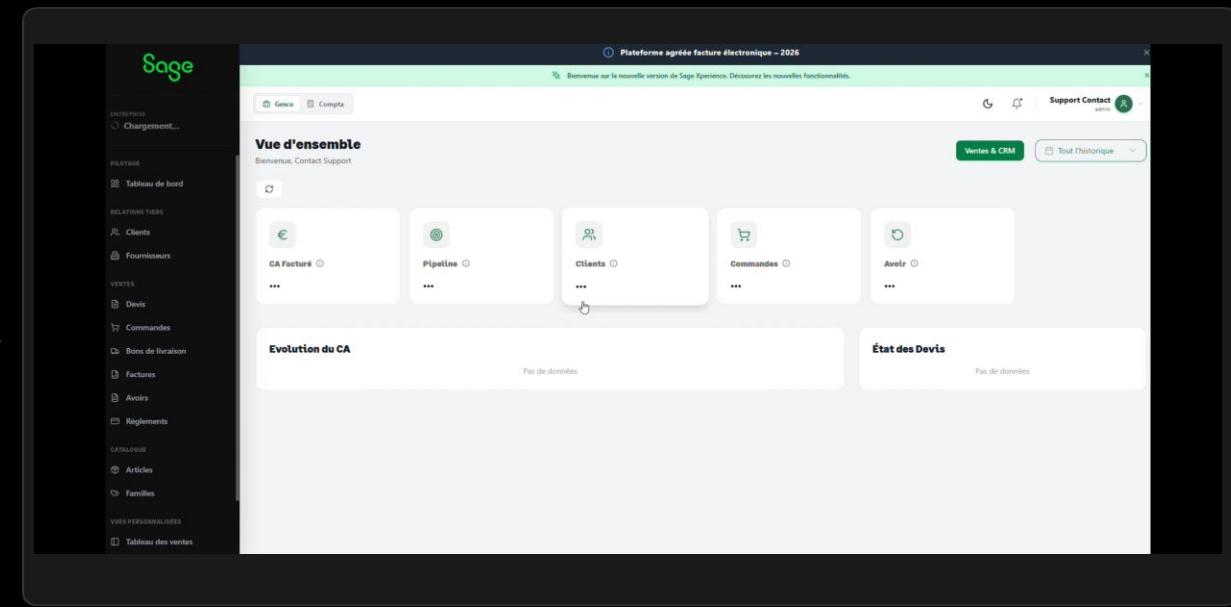

Unified Hub Experience

All services centralized in one platform (e-invoicing, knowledge base, support, marketplace).

Data-Driven Intelligence

Real-time usage analytics to optimize user experience and business decisions.

**100% aligned
Sage 100 SPC**

Cloud migration becomes obvious, not a constraint.

Now, let's talk about

Sage AI Studio

Artificial intelligence at the service of your clients.

Builder.AI

Create custom screens and dashboards
simply by describing what you want.

Workflow.AI

Automate business processes without
coding. Describe it, AI builds it.

PRODUCTS DEDICATED TO PARTNERS

Builder.AI.

Describe. AI builds.

- ✓ Generate Sage-connected views with a simple prompt
- ✓ Iterate, Improve, Finalize: VibeCoding Mode
- ✓ Deploy the final view to the customer portal
- ✓ Multi-product & Multilingual
- ✓ One API per view - universal integration

Making Sage portal the customer Hub.

Image avec produits Sage, et autres (CRM,)

Accessible via the customer portal.

The screenshot shows the Sage Xperience customer portal dashboard. The left sidebar includes sections for ENTREPRISE (BIJOU SA), PILOTAGE (Tableau de bord), RELATIONS TIERS (Clients, Fournisseurs), VENTES (Devis, Commandes, Bons de livraison, Factures, Avoirs, Règlements), CATALOGUE (Articles, Familles), and VUES PERSONNALISÉES (Tableau des ventes). The main area displays the "Tableau de bord des ventes" for the period January 2025 to June 2025. Key metrics shown include Chiffre d'affaires (6 144 231,86 €, +18.5%), Devis (311, +12.3%), Commandes (200, +15.8%), and Factures (163, +14.2%). Below these are charts showing monthly sales evolution (line chart) and sales by commercial (bar chart). A performance table lists sales figures for Sophie Martin and Thomas Dubois. The top right features a welcome message for the 2026 electronic invoice platform and a support contact link.
